Professional Experience

The Washington Post | Ad Operations & QA Specialist | June 2024 – Present

- Configure and execute 15–20 weekly campaigns in Google Ad Manager (GAM), optimizing setup, targeting, and line items for client goals.
- Conduct rigorous QA on display, video, and third-party tags/pixels, maintaining <2% error rate with brand compliance.
- Build custom ad units and test pages with client assets, ensuring precise tracking and seamless activation.
- Develop AI-assisted tools to streamline ad ops workflows, saving time on keyword parsing and tag validation.
- Serve as SME in GAM and GAM Report Center, generating data-driven reports and cross-training teams.

The Washington Post | Digital Advertising Trafficking Coordinator | Dec 2022 – June 2024

- Configured initial digital advertising campaigns in Google Ad Manager (GAM), handling campaign setup and basic targeting.
- Performed initial QA on ad tags, supporting delivery standards during transition period.

nContext | Digital Advertising Specialist | Jul 2021 – Dec 2022

- Led strategic campaign planning and execution for 5–6 clients across entertainment, arts, and cultural sectors, managing \$100K+ monthly budgets and aligning platforms (Facebook/Instagram Ads, Search, Programmatic) with ROI goals.
- Built custom dashboards, led weekly/biweekly client calls to review performance, and recommended optimizations in targeting, budgets, and creative to drive leads, & sales.
- Implemented A/B testing and managed email marketing (Mailchimp) to enhance campaign efficiency, delivering data-driven insights and measurable returns across diverse portfolios.

Tecore Networks | Digital Marketing Specialist | Jul 2019 – Jul 2021

- Led WordPress homepage optimization, increasing session duration 52% (2:08 to 3:14) and conversions 13% (32 to 36) in 3 months via on-page SEO and GTM tracking (scroll, PDF downloads, inquiries).
- Prepared monthly analytics reports to identify trends and improve KPIs for website and marketing channels.
